## JFK Asks GOP Support Major Bills

**AUGER TRAPS GIRL IN DITCH** — Rescue workers lift seven-year-old Janice Herman from a gas pipe ditch she fell into and was then trapped by the twisting auger, at bottom. It took rescue workers in Youngstown, O., 90 minutes on Wednesday to free her right leg which was pinned by the auger. Surgeons had to amputate the leg after her rescue.

### President Urges Arbitration

## Airline Engineers Ponder JFK Plea

WASHINGTON (AP) — Flight engineers debated today whether to bow to President Kennedy's appeal to cancel a strike threat against three major airlines and submit their jet crew job claims to arbitration.

The Flight Engineers International Association set up a news conference for 2 p.m. to give the union's answer.

It was uncertain whether there would be a walkout against the three big carriers—Pan American World Airways, Eastern Air Lines and Trans World Airlines.

Kennedy sharply criticized the engineers at his news conference Thursday after government-sponsored peace talks that had been going periodically for nearly two years ended in a complete deadlock and a walkout appeared imminent.

At Kansas City, Chairman H. S. Dietrich of the union's TWA branch said there probably would be no strike on that airline at least before early Saturday morning.

A walkout would idle nearly 60,000 domestic and 20,000 overseas passengers daily.

The dispute has been complicated by a longstanding feud between the engineers and the Air Line Pilots Association for cockpit jobs. When the jets came the pilots succeeded in getting a third pilot put aboard along with the engineer to make up four-man crews. Three-man crews have now been ruled sufficient.

The problem then became which man would be thrown off, a pilot or engineer. A number of White House study groups recommended trimming jet crews to two pilots and a combined pilot-engineer. The engineers, besides being at odds with the pilots anyway, felt

Both the pilots and engineers unions belong to the AFL-CIO, but that organization long ago threw up its hands at achieving a solution after the engineers rebuffed proposals that they merge with the pilots into one plane operators organization.

## Estes-Solvents Links Sifted

### Company Officials Recalled to Stand

WASHINGTON (AP) — The House investigation of Billie Sol Estes digs deeper today into links between the West Texas promoter and Commercial Solvents Corp., which was left holding the bag for \$5.7 million when Estes' financial empire crumbled.

Called to the witness stand for the third day were Maynard C. Wheeler, Commercial Solvents president, and other top officials of the company which supplied Estes with liquid fertilizer and extended him millions in credit.

There were indications that they would be followed next week by two key figures in the Estes tangle who were Agriculture Department officials under the Eisenhower administration and left to become directors of Commercial Solvents.

These are James A. McConnell and Walter C. Berger. Berger succeeded McConnell as head of the Commodity Credit Corp., the government organization that buys and stores surplus grain. Berger held that position in 1958 and 1959 when Estes got into the grain storage business with the help of a loan from Commercial Solvents.

As security for his loans from Commercial Solvents, Estes assigned all his government grain storage payments to the company. They collected more than \$7 million before Estes went broke, still owing the company \$5.7 million. Rep. Ross Bass, D-Tenn., charged Thursday there was a "triangle of interest" among Es-

## Algiers Hospital Damaged by OAS Bombs

### 'Scorched Earth' Policy Accelerated By Secret Army

ALGIERS (AP)—Seven plastic bombs heavily damaged three surgical pavilions and the central laboratory of Algiers' vast Mustapha Hospital today in the wake of a Secret Army Organization announcement that it was launching an all-out campaign to lay waste to Algeria.

Hospital officials said not a single person was injured by the blasts. In recent months, after the secret army raided several hospitals, most Moslem patients were evacuated to makeshift clinics.

**Rendered Useless**  
The hospital said the surgical pavilions and laboratory have been rendered useless.

A group from the Moslem National Liberation Front, the FLN, inspected the sprawling, 2,500-bed hospital late Thursday and announced the Moslems planned to take it over. That made it a prime target for the secret army in its plan to destroy everything that might be useful to the Moslems after independence.

A clandestine radio transmitter announced Thursday night that the secret army's high command had decided to accelerate its scorched earth campaign because it had failed to obtain more concessions for the European settlers from Algeria's future Moslem rulers.

**Ordered to Quit Algeria**  
The broadcast ordered all Europeans to leave Algeria. But an earlier secret army broadcast from Oran, the territory's second city in western Algeria, said European residents of western Algeria would regroup in major cities in that area for a last-ditch defense against Algerian independence.

Along with its desperation fight to leave an independent Algeria a waste land, the secret army mounted a new offensive against the French government and President Charles de Gaulle. The government announced the smashing of a new secret army plot to kill De Gaulle — the third in nine months. Widespread arrests of secret army agents in France were reported.

## Rules 'Accident' In Poisoning Case

The death of 28-month-old Gerry Phillips from insecticide poisoning was ruled "accidental" today by Dr. William A. Kolozsi, Columbiana County coroner.

The coroner said it was a "freak accident" that occurred June 6 when the boy waded in a puddle of water on the George Kornbau fruit farm and then became ill. The water contained fruit spray (parathion) which had been used early to spray the orchard.

Samples of the water were sent to the Communicable Disease Center in Atlanta, Ga., which said the water had a high concentration of parathion in it, the coroner said.

The victim's father, Paul, works at the Kornbau farm.

## President Places Special Emphasis On Farm Measure

WASHINGTON (AP)—President Kennedy, giving Democrats in Congress a light pat on the back, has urged Republicans to ignore party labels and vote for his major proposals.

Kennedy's prod at his news conference Thursday amounted to a concession that he needs GOP votes on some issues as well as a challenge to Republicans to adopt a nonpartisan stance on "matters of great national import."

As a senator, Kennedy recalled, he sided with former Republican President Dwight D. Eisenhower on such questions as raising the debt limit and permitting aid to Communist Poland and Yugoslavia as a tool of foreign policy. He encouraged Republican support on these propositions. And he put special emphasis on his farm bill, already passed by the

## Four Persons Hurt In Area Road Mishaps

Four persons were injured, none seriously, in four traffic accidents investigated by the State Highway Patrol Thursday.

Mrs. Casto Lott, 79, of RD 4, Salem, is listed in fair condition at the Salem Central Clinic with scalp lacerations, lacerations and possible fracture of the right hand and possible fractured ribs suffered when the car in which she was a passenger was involved in an accident at 3 p.m.

The Patrol reported that Casto Lott, 80, was traveling south on Rt. 45, two miles south of Salem when he went off the right side of the road to avoid striking an oncoming car and went over an embankment. He was treated and released.

In another Rt. 45 mishap, Matthew Tusek, 11, son of Mr. and Mrs. John Tusek of RD 2, Lisbon, was admitted to Salem City Hospital for possible concussion. He is listed in fairly good condition.

According to the Patrol, Tusek was riding with three other youths in the rear of a pickup truck driven by Francis Possage, 17, of RD 2, Lisbon about four miles south of Lisbon, when he fell out of the truck, striking his head on the pavement. The truck was not traveling fast, the Patrol added.

Charles Withers, 19, of RD 4, Salem, was treated by his family doctor for lacerations of the forehead after he was involved in a two-car mishap on the Roller Road, three miles south of Greenford at 11:45 a.m.

According to the Patrol, Withers was traveling west on the

## Senators Turn Spotlight on AGVA Officers

### Five Night Club Operators Refuse To Give Testimony

WASHINGTON (AP)—Senators lifting the neon curtain on mobster terrorism in honky tonk night spots put the limelight today on a dancer, a Chicago hoodlum and officers of the entertainers' union.

The union has been pictured by some witnesses as standing aside while shady night club operators forced girls to sell drinks with sex.

The Senate Investigations subcommittee is exploring allegations that some officials of the American Guild of Variety Artists have connived in white slavery, prostitution, pocket picking and other night club rackets run by crime syndicates.

Sgt. Louis Cantone of the vice and narcotics unit of the Chicago Police Department told the subcommittee Thursday that Chicago mobsters used fronts to conceal their ownership of night clubs, and of holding their entertainers in terror.

"There certainly is a state of collusion existing here," Cantone charged in a blast at the AGVA.

"AGVA," he said, "is not doing a doggoned thing about it." He contended there is much the union could do to protest its members from exploitation.

"They are absolutely aware of the conditions in these clubs, they know all about it," the sergeant said.

Sen. John L. McClellan, D-Ark., the chairman, told his subcommittee "it is shameful condition they (AGVA officials) permit to exist. They fail to enforce the contracts they make for the protection of these girls."

Five night club operators refused to testify Thursday.

Three of them, reciting the Fifth Amendment from cue cards printed in big black type, sat side by side at the witness table—Joseph May, Americo (Doc) Amadio and Julio DeJoris. They refused to tell whether prostitution, pocket picking and hustling of overpriced drinks to male patrons were required of woman entertainers in their places.

James (The Monk) Allegretti likewise refused to talk about

### Decline Baffles Wall Street

## Stocks Edge Up After 4-Day Drop

NEW YORK (AP)—The stock market moved higher in early trading today with volume brisk and the tape running late.

The market was struggling to rally from a four-day decline that hit the lowest level in many months.

The market closed Thursday at 563.00 on the Dow Jones average of 30 industrial stocks, marking the lowest level since that average hit 562.27 on Dec. 12, 1958.

By The Associated Press 60-stock average, however, the market was at its lowest point since Nov. 2, 1960.

Most key stocks today moved up or down within a range less than a dollar in active trading.

The deep slide Thursday carried averages beneath the low point reached in the May 28 collapse, and erased an estimated \$5.6 billion from quoted values of issues on the New York Stock Exchange.

Why the market has kept dropping without a shove by discouraging developments was a baffling question on Wall Street.

"Words, excuses, reasons are not going to help," said a broker. "They never do when you have emotion dominating the Stock Market."

Many analysts have been putting part of the blame on what they term the Kennedy Administration's anti-business attitude since it forced the steel industry to rescind a price increase.

One analyst, L. O. Hooper of W. E. Hutton & Co., offered a different view. He said:

"Many people seem to think someone is personally responsible for what has happened in the market recently. The fact is that this decline stems from the abuse of common stocks by almost everyone in the period of over-speculation."

The New York Stock Exchange, after an examination of market activity on the hectic down-and-up days of May 28, 29 and 31, has come up with these conclusions:

## 10-Year-Old Boy Heir to Duke Fortune

BRUNSON, S.C. (AP) — A tall 10-year-old boy who has led an unobtrusive life in this rural South Carolina community is heir to the lion's share of one of the country's largest fortunes.

Walker P. (Skipper) Inman Jr. was bequeathed \$30 million of the \$40 million estate left by his grandmother, Nanaline H. Duke, Mrs. Duke, widow of the founder of the American Tobacco Co., died April 12 at the age of 90. An order admitting the will to probate was signed Thursday in Surrogate Court in New York.

Since the death of his parents, Skipper has lived in this little community near the Georgia border, midway between Augusta and Savannah, with his uncle and aunt, Mr. and Mrs. Hugh Lightsey, and his half-sister Susan Inman. Susan is a student at the University of South Carolina.

Young Inman is a grandson by Mrs. Duke's first marriage to Dr.

William P. Inman of Atlanta, Ga. Mrs. Duke, the former Miss Nanaline Holt of Macon, Ga., was a widow at the time of her second marriage.

Skipper's aunt is Doris Duke, who is wealthy in her own right. She was remembered in her mother's will with a bequest of personal property, jewelry and clothing, but no cash.

Mrs. Duke left \$5 million to Duke University, in trust for the benefit of its medical school and hospital. Other bequests totaled

about \$800,000, and the balance went to her grandson.

Her late husband, James Buchanan Duke, was chief benefactor of the Duke Foundation.

## Fattening Up the Cattle

John N. Garner, when he was vice president of the United States during Franklin Roosevelt's first two terms, once advised his chief "to let the cattle fatten up a bit."

Mr. Garner was using cow-country talk to explain to a city boy what happens if you run the cattle too much. They lose weight and spirit. They do not thrive by being kept on the move all the time.

Mr. Roosevelt in those days had just discovered the Keynes philosophy of spending the country back into prosperity. What he was doing with it was peanuts compared with what he would do later with a national defense budget. But toward the end of his second term the national debt already had topped \$40 billion for the first time and was headed for 12 digits.

Businessmen were being harassed and abused by the White House. The Department of Justice was breathing on corporate necks. Congressional investigations in unfriendly hands were giving fits to private enterprise. Mr. Roosevelt counted that press conference lost and that fireside speech wasted that did not feature some savage attack on "Tories," "princes of privilege" and "male-factors of great wealth."

**HIS HOSTILITY** was a cold hand clasped hands were giving fits to private enterprise, throughout the '30s. Not until businessmen were urged to let bygones be bygones and out-produce the world to make the United States the "arsenal of democracy" was political hostility abandoned. Nothing was too good for business during the war.

When Mr. Garner urged his chief to quit running the cattle so they could fatten up, he was giving homely expression to a

thought that had become nearly universal among those who understand how wealth is produced. He had in mind the same things being pointed to by observers today—the importance of tax laws that encourage enterprise to expand and take chances, for instance.

He was thinking of the necessity of maintaining a climate that makes it seem logical for enterprise to conduct long-range planning—of maintaining an environment for producers of wealth that provides reasonable assurance of profit.

**PRESIDENT KENNEDY** is striving to restore confidence. In his commencement address at Yale University Monday he again glossed over his April outburst of hostility toward those units of the steel industry that did what all units know must be done if they are to make enough profit to underwrite their expansion.

The President undoubtedly is sincere in what he is trying to do, and he also is politically shrewd enough to know why his work is cut out for him. By blocking proposed price increases for steel, he raised doubts of his future reactions following price increases. It's not what he says but what he does that matters now.

If the price of government continues to rise budget by budget, if the cost of production continues to go up as both organized and unorganized workers ask for more income, enterprise must be permitted equal latitude.

Otherwise, the only cattle fattening up will be in other pastures. The business cattle will have nothing to look forward to but an endless run, to stay ahead of the politicians.

## Hercules Would Have

For the fun of it suppose Hercules, the mythological hero, should materialize and try to cope with the world's problems.

It would seem he could have everything in apple-pie order quicker than the next tax comes due but if he performed now as he did then he would be a crumb bum.

Look at the record: he knocked off kings, queens and even his own children like swiftness flies.

He was a great hand with animals, eliminating them as fast as he could swing his club. Imagine the cry that would go up from modern animal lovers if he took out after stags, oxen, birds, horses and dogs. Each one of these beasts has its own society of human beings today pledged to protecting it.

This is only the beginning. Hercules clean-

ed the Augean stables by diverting a couple of rivers. What a howl would go up from residents downstream.

These stable had 3,000 oxen in them and had not been cleaned for 30 years.

Take his campaign to get the girdle of Hippolyta, queen of the Amazons! "Maniac Loose in Countryside," would be the headline. Parents would keep their daughters locked in the house. Women would not be safe on the streets.

Editorials would be written. The first of the "panty raiders" would have to be stopped!

Hercules would be investigated by half a dozen justice departments, parliaments, general assemblies and security councils.

After going through various wringers with attendant deterrents he would be so limp he would be only too glad to go back to being a constellation in the heavens.

## Don't Overdo It

There is, to be honest about it, a built-in embarrassment about Father's Day.

This also is true of Mother's Day, but not in the same degree. Mothers, being strongly sentimental themselves, aren't embarrassed by sentimentality. Fathers are.

They aren't used to it. Other people don't expect them to be sentimental, so fathers make a show of proving this sort of thing is alien to them. Some of them, more unsure of themselves than the ordinary run of fathers, rant and roar to make sure everybody knows they're the king of the jungle without a soft spot anywhere.

That's how it is with fathers on Father's Day.

Don't put the old boy on the spot. Whatever you're going to do for him, do it in a way that gives him every decent opportunity to swallow hard and dash a furtive tear from his eye without being seen. Remember, he's not used to being fussed over.

I don't know what they're teaching in political science courses, but they'd better be telling students about the declining power of the presidency and the increasing power of Congress—and using daily newspapers as living textbooks.

We never have found an illustration in our bird books that looked like the birds we keep trying to identify as they flutter around our bird sanctuary in Rosy Fingert Dawn.

All ballplayers who tell little hopefuls how to bat say the kids should find a stance and style that makes them feel comfortable, which disposes of the idea that players can be taught to bat—and also seems to dispose of all batting coaches.

No one believes our incredible Rottweil pup bites tin cans until they're flat, then plays tin can shinny with herself. No, not with a shinny stick, silly—with her paws.

That super-duper television shot of the pitcher throwing to the plate, the one they take with the camera in center field, gives us free-loaders in the cheapest seats a view for free that no amount of money could buy.

I think that with effort, if I wanted to spare it, I could understand the actress named Taylor, but nothing could make me understand the one named Monroe, the one who has just been taken out of an important picture because she was unable to get to work on time and often didn't get to work at all.

I admire Roman Catholics for coming to grips with school segregation in Southern cities, but we should remember that Negro Catholics are relatively rare—only 635 in a total of 8,000 pupils in Atlanta. That's less than one per cent.

Although I deplore the controversy over

how we are going to pay the ever-rising cost of staying alive so much longer than we used to, there is a bright side in sight. This is the first time we've come to grips with the problem. Until that had been done, no solution was going to be found.

If they ever let me be a despot, my first move will be order every street intersection to be marked and guarded by over-head signs. No other signs can be trusted in an era of high-speed traffic.

This country needs a tax index that will show the level of taxes paid in all parts of the country. It would be based on actual charges, like the Consumer Price Index, except it would go one step further and show what taxes actually are paid by typical families in various income brackets.

I am always surprised when highways that run straight as strings on maps are curly as bedsprings when you drive on them, because I forget that mapmakers can indicate only the general direction, not twisting and turnings.

I have made my annual discovery that no one has designed anything better than an old-fashioned hoe sharpened with a whetstone if the problem is to destroy a maximum number of weeds in minimum time.

Whenever there's a profit in it, the Soviet bloc leaders swiftly and easily forget their self-inflicted pain over Franco Spain. There are, for example, those class-conscious leaders of Communist Poland.

They are so sensitive over our relations with M a d r i d. But they are not so sensitive when it comes to taking zlotys from the generalissimo. When, during the recent strike of the Asturian miners, Spain ran short of coal—Warsaw eased Madrid's needs.

Vast tonnage of coal was loaded aboard freighters in the Polish harbor of Gdynia. They steamed out to Spain's Northwestern Asturian port of Gijon.

This is Franco's busiest coal port. As the ships sailed, more and more vessels were loaded in Gdynia. The Poles intended to create a water-borne conveyor belt.

But when the first two freighters arrived in Gijon, the Spanish dockers respected the strike. They refused to unload.

Did the Communist Poles pick up steam and go back to their proletarian haven? Di they respect the picket line By Karl Marx' beard, they did not.

The Communist crews were ordered to crack that line. They did. Franco's Spain got its Polish coal.

**SUPPOSE** American owners and American crews had done

that. Khrushchev would have walked into some reception and denounced us as dirty fascists making dirty dollars. But zlotys are different.

However, U.S. coal operators don't get as much chance as they used to to ship coal to Spain these days. The Polish Communist leaders are undercutting us. We aid them. They underprice us. Our coal in Virginia and West Virginia stays in stockpiles. Our coal diggers become human stockpiles.

This has been developing for some time. The latest statistics I have reveal that the Poles have been doing quite a business with the Spaniards. In 1961, they signed a pact calling for 80,000 tons of coal to be delivered by Warsaw.

**IN A SPEECH** before the Ladies Garment Workers' Union the other week, George Meany, president of the AFL-CIO, blasted Poland. There has been no sound out of Warsaw. Perhaps Polish leader Gomulka is too busy with other matters of international trade.

He has a problem with our U.S. Senate. And merely to complicate that problem and strain his dialectics, I hereby

Poland's trade with none other than Fidel Castro of Cuba—one of our neighbors.

This report comes at a moment when Poland's intermediaries are telling our State Department intermediaries that it would not sit well with Polish efforts at neutrality if we cut off aid and food.

Poland would need less aid in the form of food and special ma-

chinery if Warsaw were not sending millions of dollars worth of food and special machinery to Cuba.

I point to the Havana-Warsaw pact covering \$21 million. It was signed in Warsaw Dec. 22, 1960.

**FIRST** the agreement calls for Poland to ship capital goods to Cuba. This means, the small print says, electro-technical equipment. Also mining machinery. Now' the only pits the Cubans can dig into are those which Dr. Castro has "intervened" away from us. Without benefit of payment, of course.

So we aid Poland. The Poles aid the Fidelistas in mining the property the Communists expropriated from us. I presume it would irritate Castro, Gomulka and Co. if I said "stole" from us.

There's more. The Poles say they need food. Yet they are dispatching agricultural machinery to Castro. Also building machinery. Also machine tools and transport equipment. On the list is "consumer durables"—meaning, radios and gas stoves. The Polish people could use those, too.

If the good folks of Poland need food from us, why is Poland, this very minute shipping "agricultural produce and foodstuffs, including: bacon, potatoes, flour and casein (a protein milk product)."

So here we are. We supply Poland. Its leaders deprive its own people and Warsaw supplies Cuba.

This Polish neutrality is mighty strange. And it comes at a mighty high price for us. Let's at least insist they feed their own people first.

## Odds In California

By RAYMOND MOLEY

### Nixon, Brown Contest May Be Close

At this time, five months before the November election, it would be politically advantageous to Richard M. Nixon to have people in California believe that he is the underdog in his effort to win the governorship. For such an assumption would infect Gov. Brown's forces with overconfidence and it would inspire Nixon's people with greater determination.

Most press comment contributes to this picture of Nixon facing a very serious uphill fight.

Once more, as in every California campaign, it is pointed out that California's registration shows a heavy Democratic majority — this time, of 57 per cent, to 40 per cent for Republicans. In round figures it is 3,834,000 Democrats and 2,686,000 Republicans.

It is widely assumed from these figures that Nixon to win must get 90 per cent of the Republican vote and 20 per cent of the Democratic vote.

**FROM THESE** assumptions and statistics the assertion is made that the Republican candidate must become more liberal to get the necessary votes from Brown's potential. That conclusion is altogether too pat to apply to the complex which is California's electorate.

Now, after spending three weeks before the primary and most of a week since in California, I propose to examine these assumptions in the light of the facts.

In general, I believe that the race down to the wire in November will be very close, with little justification for a prediction — at least for a prediction based upon the foregoing assumptions.

It has been shown over and over in California elections that a Democratic advantage in registration means very little. Great numbers among those who register Democratic are from Western states, including Texas, and they register in line with their traditional party affiliation.

There are also many elderly people who belong to a pre-Roosevelt Democratic party. That party was quite unlike the liberal Democratic majority which now prevails nationally. Party affiliation as expressed in registration means very little when the choice is made in an election.

**THE ASSUMPTION** that Nixon must get 90 per cent of the Republican and 20 per cent of the Democrats fails to take into consideration several important conditions.

How many of those who are registered will vote? What proportion of Republicans will vote, and what proportion of Democrats will vote? Certainly the percentage will be far less than 100.

There is no way to determine from past experience the answer to these questions.

The real fact is that Nixon and Brown both face an immense aggregation of 6½ million individuals who are not much concerned with party labels.

The conclusion that to get a lot of Democratic votes a successful Republican must make a strong liberal appeal might have been true in the years dating back one or two decades when Earl Warren was running for governor.

In the present context, this true no longer. The "democrats" who must be won by Nixon are thousands of conservative Democrats whose numbers have been growing rapidly in the years since Warren left the state.

The fact that in the recent primary a considerable number of Republicans voted for the more conservative Joseph Shell rather than for Nixon is no evidence that these were all "hard-core" extreme conservatives.

The best estimate is that less than 5 per cent of the Shell votes were members of the Birch Society and that a large proportion of the remainder were merely expressing opposition to Brown's liberalism and the Kennedy administration.

**THE CONSERVATIVE** trend was also shown in a fairly general defeat of bond issues over the state. Shell was essentially a symbol of this protest.

The unofficial figures indicate that Nixon had almost exactly two-thirds of the Republican votes in the primary. The Birch people make a lot of noise, but their political potential is inconsequential.

It should be noted that Republicans indicated much more interest in the primary than the Democrats. They polled 69.6 per cent of their potential; the Democrats, 51.7 per cent of theirs. And the Democratic protest against Brown was shown by the fact that 16.2 per cent of the Democrats who voted indicated disapproval of Brown by voting for three practically unknown candidates.

There was also a substantial number of Democrats who wrote in the names of Nixon and Shell.

All these are factors which justify the conclusion that Nixon and Brown begin the contest on fairly even terms.

**NEW YORK (AP)**—A man is known by the footprints he leaves in the sands of time.

But deeds are not the only measure of identity.

What you haven't done tells who you are in this world just about as surely as what you did do.

For example:

I am the fellow who at 51 never has—

Won more than \$5 on a horse race.

Gone scuba diving.

Shaken hands with a Republican president born east of the Mississippi River.

Kissed a great-great-grandmother.

Married a red-haired girl, but did marry a brunette and a blonde, who turned out to be the same girl.

Met a one-armed paperhanger with the itch.

Read a novel by Leo Tolstoy.

Ridden on the back of a fire truck.

Been given a ticket for jaywalking, or bought a ticket to a policeman's ball.

Known a man who carried his Phi Beta Kappa key in his pocket. Borrowed money from a millionaire, or known one who'd lend me any.

Played handball, squash, water polo or lacrosse.

## Ann Landers

### ANSWERS YOUR PROBLEMS

Dear Ann Landers: I've never written to a newspaper in my life, but today is THE day.

I'm a beautician in Podunk, U.S.A., who is fed up to here with mothers who bring small children to beauty shops. It's difficult for an operator to make Mother look 10 years younger when Junior is adding 10 years to HER age.

Every operator has at least one customer she hates to book for precisely this reason. Today I had three clients in a row who brought small children. It made a nervous wreck out of me. The youngsters got into the manicure supplies, spilled nail polish on the floor, tore up the plants, ripped magazines and limbed on the shampoo boards.

The mothers sat unconcerned, not seeing or hearing a thing.

An operator can't tell a woman to leave her children at home. Perhaps if you print this letter it may help. — BASKET CASE.

Dear Basket: Why can't an operator tell a woman to leave undisciplined children at home? A beauty shop should be a place to relax.

You may lose a few clients but you'll add others. More than woman has changed beauty parlors because small children have been permitted to run loose in the shop.

## Good Idea Gone Wrong

Dear Ann: You recently had a letter in your column about tele-

phone pests. There's a way to get rid of these morons and I hope you will alert people to it.

When a silent caller phones for the purpose of annoying you, don't hang UP—hang ON. So long as you are on the line his phone is tied up and he is unable to receive or make calls. After a few such experiences the most stubborn telephone pest will leave you alone.

I hope this helps solve the problem for the thousands of victims who are bothered night and day by added characters who have more time than brains. — TIT FOR TAT.

Dear T for T: Sorry, I just checked with a supervisor of Illinois Bell and she says your little system won't work.

The person who hangs ON but the pest needs only to hang UP and his equipment is free.

If you can get the pest to hang on for about 20 minutes, however, you can learn who he is. The supervisor tells me that the way to trap him is to keep him on the line while you send someone to another phone and report the call. Given enough time, she can trace him.

## Too Late Now

Dear Ann: Please don't preach to us about the evils of going steady. It's too late for that now. What we need is the answers to certain questions.

First, will the law let us get

married even if we are under age? We have been told that both sets of parents have to sign when kids are minors. What if the parents are against the marriage and refuse to sign? Can we go to another state? Is it a legal marriage if we don't use our right names?

Can the parents of a girl make her give up her baby if she is not married?

Thank you for answering these questions. — IN TROUBLE.

Dear In Trouble: You thanked me too soon. There are too many ifs, ands and buts involved. I wouldn't attempt to answer your questions.

You need the advice of a lawyer. If you cannot afford one, the Family Service Society will direct you to Legal Aid. Good luck. It sounds as if you're going to need it.

## Confidentially

**TO HARD LUCK HENRY:** It's not your luck that's hard, Henry—it's your head. Get back in your own generation and stop trying to imitate race horse when you know bloom'n' well you're an old plug.

Ann Landers will be glad to help you with your problems. Send them to her in care of The Salem News, enclosing a stamped, self-addressed envelope.

## Hints From Heloise

By HELOISE CRUSE

Dear Heloise: I use alcohol and elbow grease on a clean wet garment to remove the green color caused by grass stains. Be sure to test fabric first to see if this is safe.

Next, lubricate the spot with concentrated detergent solution and f sulboth the alcohol and the detergent out of the fabric with cold water. Launder as soon as possible.

I whiten my discolored handkerchiefs by soaking them in cold water to which a pinch of cream of tartar has been added.

Those TV trays and snack tables sure come in handy when ironing. I use one tray for each room in which the ironed clothing belongs. When ironing . . . just lay the proper garment on the proper table and this makes putting the clothes away a very simple task. Saves dividing all the ironed clothing later.

MRS. HEARTBURN

DEAR HELOISE:

In some unknown manner, my refrigerator and deep freeze became unplugged. Now I have a horrible odor in both of them that I cannot get rid of. Evidently my food had rotted.

I have tried numerous things but nothing has worked. I must get rid of this horrible odor. I have scrubbed with everything on the market but still it exists. Please help. I am desperate.

Anyone ever found an answer to this? Send your suggestions to Heloise, in care of The Salem News. All will be appreciated.

DEAR HELOISE:

For those who would like to be appreciated by "friends in need" who smoke . . . carry your extra flints under the little piece of cotton in the inside of your cigarette lighter!

Really, you are a friend indeed when some one happens to be out of flints and you just remove your lighter and say . . . "allow me?" But if you never happen to be able to do this, it is still great as you always know where your own flints are! Right at your fingertips when needed. No looking in this and that drawer and wondering where you put them or the wife has hidden them. My wife always says, "They are right where they belong, in the desk drawer," but Heloise, you should see our desk drawer.

Can any gentleman tell me a good place to keep pipe cleaners? SMOKER ALFRED

DEAR HELOISE:

Here is the way I clean a dirty waffle iron:

1. Fill it with table salt.
2. Turn the iron to the regular setting as if cooking a waffle.
3. The salt will get black. Leave it in the iron until it becomes white again. Let the iron then cool and empty. Brush clean.
4. Spray with commercial

## PLEADS NOT GUILTY

CLEVELAND (AP) — John A. Gay, Lorain tavern operator, reversed his plea from innocent to guilty Thursday to charges of federal narcotic laws violations. Gay, who pleaded innocent to an 18-count indictment May 18, pleaded guilty in U. S. District Court to purchasing, selling, concealing and transporting narcotics.

Judge James C. Connell deferred sentence pending a probation report and continued bond of \$25,000. Gerald J. Celebrezze, assistant U. S. attorney, said 12 counts were dropped because the other six have a maximum penalty of 100 years in prison and \$120,000 in fines.

## Fairfield-Waterford Board Names Mrs. Patton As Nurse

FAIRFIELD — Mrs. Floyd Patton was hired as school nurse when members of the board of education of the Fairfield-Waterford district met Thursday evening in Crestview School. Mrs. Patton will be on duty three days a week.

Resignations were received and accepted from Mrs. Sybil Degnan and Mrs. Ruth Gloss, school nurses. Mrs. Freda Firestone, cafeteria worker, and Mrs. Mary Sturgeon, teacher of Latin and girls physical education.

Following a study of student accident insurance policies, one submitted by the Consolidated Mutual Insurance Co. of New York was considered the most favorable and will be recommended to the county board of education for acceptance.

Liability insurance on the school buses was increased to \$100,000—\$300,000.

Landscaping proposals submitted by the architects for the Crestview school will be accepted, with slight modifications.

tes, Commercial Slovents and the Agriculture Department on March 9, 1959, when Estes got his first contract for storing government-owned grain.

"Before he was in the grain business at all, the department had assured you you would get every dime of payments," Bass told Wheeler. "He didn't even have a grain contract until he signed over every nickel to you March 4."

Wheeler testified Thursday that McConnell acted only as a consultant on general farm trends. He said McConnell never talked to Berger at any time while Berger was still head of the Commercial Credit Corp. Berger resigned in April 1961 after the change in administration and became a director of Commercial Slovents.

Subcommittee counsel James Naughton read into the record several letters from McConnell to Wheeler late in 1960 and early in 1961, advising on what changes were likely in government grain programs under the new administration. McConnell had gone to Washington at the company's request to look the ground over.

McConnell wrote at one point, "Milo grains (a kind of grain sorghums) are deep in the heart of Texas. I doubt if this new administration is going to do very much acreage cutting at least for a year or two. The new vice president will have something to say about this." He referred to Lyndon B. Johnson of Texas.

problems of our country" and wait until 1964 to argue politics. Those problems exist regardless on who occupies the White House, he said, commenting that Eisenhower held office during the 1958 and 1960 recessions.

The chief executive said he couldn't imagine anyone deriving political or personal pleasure out of the stock market plunge or economic crises. That was his response when asked about a columnist's report that the current big business attitude toward Kennedy is: "Now we have you where we want you."

Kennedy previously had remarked that most businessmen are Republicans and happier when a Republican is president.

He got a laugh by saying: "I can't believe I am where big business wants me."

Kennedy said if Republicans make his farm bill a party issue, "We will find ourselves with a very close vote on a matter which has the first chance of bringing some order out of what is a very chaotic situation."

The administration measure, he contended, would save taxpayers \$4 billion over the next four years. Defeat, he said, would reinstate the program of Eisenhower's secretary of agriculture, Ezra Taft Benson—and he maintained this has cost more than \$6.5 billion a year, would continue piling up surpluses and depress farm income.

## Bricker To Address Buckeye Boys State

ATHENS, Ohio (AP)—A couple of real veterans of the political wars are among a record-breaking total of 1,243 high school juniors who got down to work today at the 25th annual Buckeye Boys State on the Ohio University campus here.

The two old-timers at the business are Tom Coleman of Marysville, son of State Democratic Chairman William H. Coleman, and Theodore Celeste, son of Lakewood Mayor Frank Celeste.

Along with the "pros" were two to whom the political furor will probably be a little strange. They are Peter Meitner of Columbus, a 1956 immigrant from Germany, and Rene Blaha of Granville, who arrived in the country in 1960 from Brazil.

The teen-agers arrived Thursday for the nine-day school in self government sponsored by the American Legion.

Tonight John W. Bricker, former U. S. senator and former Ohio governor, will be the featured speaker.

## French Girl To Teach At Leetonia High

LEETONIA — Miss Helene Flaud, an exchange teacher from France, will teach French at Leetonia High School next term, it was announced when the Leetonia School Board held its regular meeting Wednesday evening.

It was also announced that Roy Knestruck of York, Pa., will teach English in the high school, replacing Leonard Malinowski who recently resigned.

A report on the cafeterias at the High School and Orchard Hill Elementary School revealed that 90,862 meals were served last school year, including 7,604 free meals. The cafeterias ended the year with a balance of \$861.84.

Mrs. Lewis Stauffer reported that 1,228 students between the age of 5 and 17 were in school last year and that 223 students were under five-years old.

Repair work, including the painting of window frames, eaves and classrooms has started at the Washingtonville School with rooms at the High School yet to be painted. The High School Roof has been repaired and the building treated for termites.

It was agreed that a cold cathode lighting system will be used at the Southside School. The system is similar to fluorescent lighting.

Board members discussed the possibility of continuing the ungraded system in the schools again next year but no decision was reached and permission was granted to the Leetonia Ruritan Club to enlarge the gate at the south end of the football field.

Ernest Knabenhans of Calumet City, Ill., a Chicago suburb, identified by the subcommittee as owner of the Rainbow and Sky clubs, also cited the Fifth.

Earlier in the day Joan Gainsley, an actress and interpretive dancer, testified efforts had been made to force her into "back room" prostitution in a Calumet City club allegedly owned by Amadio.

Platinum blonde Corinne Suzette Stein, another dancer, told of entertainers forced into prostitution and to kick back their earnings to employers at clubs in Miami and Calumet City. She said she refused to be pushed into such a life and had made it stick.

Mrs. Setin accused AGVA of brushing off her complaints and considering her as a "fantastic strip teaser."

## 100,000 Expected at Graham Rally Sunday

CHICAGO (AP) — Evangelist Billy Graham winds up his 19-day Crusade for Christ in Chicago this weekend with the final rally Sunday afternoon in Soldier Field.

Since the opening of the crusade on Memorial Day, meetings have been held in McCormick Place, the big exposition center on the lake front, and have drawn crowds ranging up to 44,000.

However, crusade officials are planning for a turnout of possibly close to 100,000 in Soldier Field, the huge outdoor stadium near McCormick Place.

Some 36,000 persons attended Thursday night's revival.

Graham, in his sermon, said that "man thinks if he solves all society's problems, he will be solving the troubles of the world. But that won't do it."

"The Bible says," Graham continued, "man shall not live by bread alone. But today bread is exactly what men live for. We are subscribing to the Marxian philosophy of pure materialism."

## House

(Continued from Page One)

Brookings Institution and scholars from other organizations have concluded this stretchout was a factor in creating the 1958 recession.

The Senate Finance Committee, headed by Byrd, doesn't plan to start hearings on the debt limit increase before June 25. That is five days before the end of the present fiscal year, when the temporary debt ceiling of \$300 billion drops to \$285 billion, about \$9 billion less than the expected national debt at that time.

Four Democrats joined the House Republicans in their fight for a \$306-billion roof. Twenty-one Republicans voted against it.

On passage, 202 Democrats and 9 Republicans gave the President his victory, while 39 Democrats joined 153 Republicans in opposition.

### SENTENCED TO JAIL

LISBON — Carl Rockwood, 18, of East Liverpool pleaded guilty today to operating a motor vehicle without the owner's consent in the theft of a car owned by Hugh M. Thorne of East Liverpool and he was sentenced to five months in county jail by Common Pleas Judge Joel H. Sharp.

Following his guilty plea of the burglary of Alex's Carry-Out store in East Liverpool, Rockwood was remanded back to the Lima State Hospital for a 60-day period of observation.

## 2 Held For Jury Action In Burglary

Charges were filed by Columbiana Police Chief William McGuckin. Both men were held under \$1,500 bonds.

## 2 Freight Trains Collide At Alliance

ALLIANCE, Ohio (AP)—A New York Central system freight train ploughed into the tail end of a Pennsylvania Railroad train traveling in the same direction early today near Alliance.

Foster Erskine, 42, Akron, a conductor on the Pennsylvania Railroad freight, was taken to Alliance City Hospital for observation.

The New York Central said two cars of its 112-car train were derailed. A wrecking crew was dispatched to the scene. The Central spokesman said the Pennsylvania freight, composed of 121 empty cars, and the NYC train both were traveling west on the single track line.

## Washingtonville Permit Is Denied

The State Liquor Control Board has denied the application of Wilfred W. Tunnat of Main St., Washingtonville, for a new D-5 (night club) permit.

The department explained that rejection followed the objections of school officials and the Washingtonville police department. Washingtonville elementary school is within 500 feet of the proposed permit premises.

The department further stated, "The Washingtonville Police Department formally objects to the issuance of subject permit on reasonable and well-founded grounds."

"In view of the facts, the Department finds that the issuance of a new D-5 permit would result in a substantial prejudice to public decency, sobriety and good order; hence, the department is without authority to take such action."

## Youth Faces Death for Killing Coed

AKRON, Ohio (AP)—Death in the electric chair is the fate set for 18-year-old Richard John Stewart by three Common Pleas Court judges who convicted him in the sex strangling of a Kent University coed.

The death penalty is automatic because the judges did not recommend mercy in the first-degree murder conviction for the slaying of 18-year-old Judy Sooy last September in the basement of the twelfth home.

"It's unfair, he's not guilty," Stewart's mother cried out when the verdict was announced last Thursday. "They had to believe you, but they didn't," said Mrs. Howard Hathaway as she embraced her son and wept.

The judges were Frank H. Harvey, L. A. Lombardi and Stephen A. Colopy.

Defense attorneys, who have until Monday to file motions, said they would seek a new trial and appeal the verdict.

Three psychiatrists testified during the trial for the defense that Stewart was psychotic when he killed the girl. They said he knew what he was doing when he lured Miss Sooy to his home and hit her with a hammer to knock her out, but that he was "detached from reality" when he tightened a piece of clothesline around her neck and strangled her because he couldn't stand her moans.

Stewart said he took her to the basement because he wanted to see her nude body. She was not raped.

with a Brussels newspaper, indicated the secret army still was fighting to take over France.

Gen. Philippe Gineset, commander of French forces in the Oran area for only two weeks, was shot and gravely wounded by secret army gunmen outside a military hospital chapel in that secret army stronghold. An army doctor walking alongside was killed. They had gone to the chapel to pray at the coffin of a lieutenant colonel assassinated the day before.

Even as the threat of greater destruction was being broadcast, the European terrorists pressed their campaign of scorched earth and murder. They killed four persons Thursday, wounded nine others and set 21 fires in public and private buildings that might be of use to Moslems after a European exodus.

The secret army said it was

ordering the European settlers to quit Algeria because the Moslems had refused to give guarantees to the European minority beyond those provided in the March 18 agreement at Evian between the Nationalists and the French government.

## Defending Champ Gene Littler Leads Open With 69

### Yankees In Town For Weekend Set

CLEVELAND (AP) — The biggest crowd of the season at Municipal Stadium—more than 40,000—is expected to welcome home the Cleveland Indians for the opener of their vital four-game series with the New York Yankees tonight.

Jim (Mudcat) Grant (3-1) will face the Yanks' Ralph Terry (7-5). This will be their third meeting and each holds one victory. The Indians lead the New Yorkers 5-4 in games played but trail the world champions by one game in the overall standings.

**Mantle May Return To Lineup**

Mickey Mantle, sidelined almost a month by a knee injury, said he may return to the lineup tonight.

The Indians will need some cheering to pep them up from the sour note on which they closed the 16-game road trip Thursday night. Washington tripped the Tribe 4-3 as Cleveland split the longest tour of the season, 8-8, after dropping two of three to the hot Senators.

Danny O'Connell's bases-loaded single in the eighth inning broke a 3-3 tie and set the Senators to their sixth triumph in their last seven games. Gary Bell was the victim in relief.

Garrett and DeRienzo paced the VFW attack with two hits each. Marshall copped the win as he limited the losers to two hits and fanned 12 batters.

Rich Paroltonieri and Jim Hepley socked the two singles off Marshall to feature for CIO 3372. Don Kendrick suffered the loss but he struck out 11 VFW hitters.

### Class F

The losers overcame a 3-0 National Cleaners lead in the first frame as they poured five tallies across the saucer in the second inning.

George Spack and Kenny Kerst blasted two singles apiece to lead the Hunt's hitters.

### Class H

The Moose Lodge win over Home Furniture pushed the losers into second place behind Moose by a half-game. Moose's record is now 4-0 while Home Furniture sports a 4-1 mark.

Stepanic's Take 2nd Place In Class A; IM Wins

### Old Dutch Snaps Lincoln's Streak

Old Dutch ended league-leading Lincoln Machine's five game winning streak, 2-1 but had to go extra innings in Class AA action Thursday at Kelley Park.

In other games Stepanic's moved into second place, a half-game out of first, with a 8-0 victory over Tullis American and Industrial Mining nipped the Purity Deeres aggregation, 4-3.

After two scoreless innings Lincoln Machine broke the ice with a run in the third frame on singles by Bill Pauline and Bill DeFavero and two walks. Old Dutch came back with a tally in the last of the fourth on a single by Red Weingart and a double by Jim Barnes.

The next five and a half innings were scoreless as the game settled down to a stiff pitcher's duel between Lincoln's Hank Miller and Old Dutch's Glen Mercer.

Old Dutch managed to push the winning tally across the plate in the last of the 10th inning without a hit. The winners had a walk, a stolen base and an error aid them in gaining the victory.

Miller suffered the loss for Lincoln, which is now 5-2 in loop play. Miller fanned 10 batters.

Stepanic's racked up its fifth win in eight starts in moving into second place. Dave Drakulich's three-run homer in the first inning set the pattern for the winners as they scored two in the second, one in the third and finished up with two in the fifth.

Jim Stonemetz was the winning hurler as he allowed Tullis' only four singles in going the distance.

Don Bruderly collected two singles for Stepanic's as Stonemetz added a double.

Dave Hiner, Jim Harrigan, Jerry Hendricks and Dave Ehrhart socked the singles off of Stonemetz.

Industrial Mining needed an extra inning to hand the Purity crew their seventh straight loss after two victories.

Purity jumped off to a 1-0 lead in the top of the first but the Mining nine came back with two in the last of the first.

The losers tallied one in the

### Finals Set Tonight In CollegeWorld Series

OMAHA, (AP) — The College World Series is a three-way knot with Michigan, victim of misfortune when an easy popup fell safely, drawing the luck of a bye while Texas and Santa Clara battle it out on the edge of elimination.

It will be win or get out tonight when Texas and Santa Clara meet in the double-elimination NCAA Championships with Michigan watching from the grandstand. The winner plays the Wolverines, last team to lose in the tourney, Saturday night. Each survivor has a 3-1 record.

Texas broke open a scoreless struggle in the seventh inning with a run on a 30-foot pop and rode to a 7-0 victory over Michigan Thursday night. Santa Clara had it easy, benefitting from eight errors and sent Florida State to the sidelines 11-6.

Ed Jucker, who coached Cincinnati to the 1961 and 1962 NCAA basketball title, is a 1940 graduate of Cincinnati.

### Hartsock Tied for 4th In Ohio Senior

COLUMBUS, Ohio (AP)—Tough Scioto Country Club won the first round of its battle with 168 of Ohio's elder statesmen of the golf world. None came near reaching par during Thursday's opening round of the 36-hole Ohio Seniors Golf Tournament.

Going into the final round of the silver anniversary tournament, three are tied for the lead with six-over par 78s. They are nine-time champion Allen Rankin of Columbus, 38-40-78; John Jacobs of Canton, who won the 1960 crow and retained possession last year when the playoff was rained out, 39-39-78; and G. Ed Vaughn of Lima, 39-39-78.

Only two entrants managed to break or match par for nine holes. Bob Bell of Worthington carded a one-under 35 on the second nine, but, with his first nine 44, his total of 79 left him one off the pace.

Harry D. Franke of Cincinnati equalled par on the front nine but soared to a 45 on the back nine for an 81 to put him in a three-way tie for fourth place with Walter Hartsock of Columbiana and J. C. Watson of Steubenville.

All of the leaders are in the 55-59 age bracket except Rankin, a veteran of many national seniors tournaments, who leads the Class C (65-69) division.

### Palmer, Player 2 Strokes Behind

By DON WEISS

Associated Press Sports Writer

OAKMONT, Pa. (AP) — A dozen players are within three strokes of defending champion Gene Littler after one round in the 62nd U.S. Open golf championship but it still shapes up as a four-way race among:

1. Littler
2. Arnold Palmer
3. Gary Player
4. Jack Nicklaus

They were the big four when play began on the 6,894-yard, par 36-35-71 Oakmont Country Club course Thursday and there they were when dusk had dropped nearly 13 hours later.

**Littler 2 Under Par**

Littler holed a 100-foot wedge shot for an eagle 3 on the 480-yard, par 5 ninth and sank three 30-foot putts after that for a 2-under-par 69 that led the field of 150 of the nation's best.

Palmer and Player both had putting troubles, but wound up with 71s. At 72 was power-hitting Nicklaus, the freshman pro who appeared headed for a spectacular round after nailing birdies on the first three holes.

Young Bobby Nichols and veteran Bob Rosburg trailed Littler by a stroke at 70, the only others to better par.

Touring pros Billy Maxwell, and Frank Boynton, and two young club pros—J. C. Gossie and Bobby Schoener of Bethlehem, Pa.—were with Palmer and Player at 71.

With Nicklaus at 72 were amateurs Bobby Nichols and veteran Bob Rosburg trailed Littler by a stroke at 70, the only others to better par.

### Palmer Has Putting Troubles

Said Palmer, who ballooned to 3-over-par after 12 holes, then fired five straight 3's to save his chances: "I wasn't putting well but I'd sure like to place the ball in the same spot that I did on the second round. I didn't miss a fairway and never hit a bunker."

But he missed six putts of 6 feet or under.

Player putted for birdies on 17 of the 18 holes and got only two. He three-putted the long 18th from 15 feet.

### BRUN PACES LEHIGH

BETHLEHEM, Pa. (AP)—Third baseman Fred Braun of Massachusetts, N.Y., paced Lehigh's baseball team in batting this season with a .305 average. He made 18 hits in 59 trips to the plate.

# Surprising Twins Still Hot; Reds Shutout Giants Again

By JIM HACKLEMAN  
Associated Press Sports Writer

That's a nifty little scramble in the American League, what with the upstart Minnesota Twins and New York's perennial champion Yankees in their head-to-head duel for the lead. And it would have been even more crowded at the top if a pair of contenders like the Cleveland Indians and Chicago White Sox hadn't hit a snag against a couple of also-rans.

**Twins Edge Angels 5-4**  
Minnesota trimmed the Los Angeles Angels Thursday 5-4 on Len Green's game-winning single in the ninth inning. New York actually trails by half a game—a 32-22 record for the Yanks to 36-25 for the Twins—but holds a slim edge in the determining percentage column, .593 to .590.

Washington's last-place Senators clipped Cleveland 4-3, dropping the Indians 1 game behind; Kansas City whipped the White Sox 11-8; and Jim Gentile's slugging helped Baltimore take Boston 7-4. Detroit had the day off, along with the Yankees.

The Twins left 16 men on base and dissipated three leads but finally got their clincher against Art Fowler in the ninth when Green's two-out single brought in Zoilo Versalles, who had singled and moved to second on a ground out. The winner was Jim Kaat.

The Athletics dealt Chicago its fifth straight setback, pounding out 15 hits against prize rookie Joel Horlen and four other pitchers. Kansas City rookie Ed Charles homered his first two times up.

**Jimenez Raps Pair of Hits**  
League batting leader Manny Jimenez had two hits for the A's, singled twice. Gordon Jones, Kansas City's fourth and last pitcher, gained his first victory of the year. Gentle raised his league leading homer total to 17 when he connected in the fifth inning at Boston with one on and delivered another run as the Orioles put it out of reach with three in the sixth. Brooks Robinson also homered for Baltimore and added a double and single.

Lefty Steve Barber (5-4) was the winner with shutout reliefquette was the loser. from Hoyt Wilhelm. Bill Monbou-

Associated Press Sports Writer  
The Cincinnati Reds hung a second straight three-hit shutout on the ordinarily potent San Francisco Giants Thursday night 8-0. And the Milwaukee Braves shoved the Los Angeles Dodgers around 7-1, as Bob Shaw won his eighth.

The defeats left the Dodgers two games on top over the Giants. The revitalized Pittsburgh Pirates won their sixth straight, 6-3 over the Chicago Cubs, to close to within 6½ games of the lead. **Reds Push Into 4th Place**  
The Cincinnati triumph pushed the defending champions into a fourth place tie, 7½ away with the St. Louis Cardinals. Idle Thursday but winners of nine of their last 10. Philadelphia also was idle. The Houston Colts battered their fellow freshmen in the league, the New York Mets, 10-2. Joey Jay a 21-game winner last

year, raised his mark to 9-6 as he scattered three hits to shut out the Giants for the second night in a row. Frank Robinson drove in four runs, three with his eighth homer.

The Giants lost the services of ace left hander Billy Pierce (8-2), spiked on the right ankle by Don Blasingame as he covered first. Pierce, charged with the loss, will be out an estimated 12 days.

Shaw (8-2) gave the Dodgers only six hits. His mates got him five runs in the first inning off Stan Williams (6-3). Henry Aaron hammered his 12th homer.

**Bucs, Friend Score Win**

The Pittsburgh Pirates jumped off for two runs in the first, saw the Cubs tie on homers by Billy Williams and Ron Santo, and then went out of reach when Don Hoak hit a three-run homer in the fifth.

Bob Friend (7-7) went the route for the Pirates. Dick Ellsworth (4-9) got the loss.

Houston manhandled the Mets for seven runs in the first inning, including Carl Warwick's home run, and coasted to a 10-2 victory. Jay Hook (4-7) faced six batters without getting any out before departing. Bob Bruce (5-1) went all the way for the Colts.

**SOFTENING A POLE VAULTER'S FALL**—At first glance it appears that Finnish athlete Timo Koskela is crawling from under a pile of fallen bricks at a Helsinki sports meeting. Actually, the "bricks" are foam rubber blocks to break a pole vaulter's fall, which is becoming quite a problem since athletes are vaulting to greater heights than ever before.

A word from  
**THERON** at the  
Old Country Store

We are getting a lot of new people out here. This time of the year people travel. I had four men in from East Liverpool the other night. They thought our place was just the thing. They asked for cards to pass out. I gave them post cards with a picture of our place on them. Already others have been up. We have always tried to satisfy our customers if we can, they come back.

QUESTIONS—ANSWERS

Q—Who originated the famous slogan "Damn the torpedoes! Full steam ahead?"  
A—Adm. David G. Farragut, in the Battle of Mobile Bay.  
Q—What became of the tablets of stone on which were written the Ten Commandments?  
A—When Moses came down from Mount Sinai bearing Gods laws to his people, he found them worshipping an idol and in anger broke the two tablets.

Twentieth Century Limited Still Showpiece

## One of World's Most Famous Trains Marks Anniversary

By FRANCIS STILLEY

NEW YORK (AP)—One of the world's most famous trains celebrates its 60th anniversary today—still a showpiece in an era of diminishing rail travel.

It's the New York Central's Twentieth Century Limited, running between New York and Chicago.

While the noted flyer nowadays doesn't have quite all the elegant touches of yesteryear, it continues to provide the railroad's tops in equipment and personal service. And the renowned red carpet still is rolled out on the platform for passengers boarding at either end of the line. Countless patrons have remained faithful through many years.

Al Jolson used to entertain dining car crowds with popular songs of the day.

On some occasions, the train has been all but mobbed at stops because of the personages it carried. Among them were Ignace Jan Paderewski, the celebrated pianist and president of Poland, and film stars Douglas Fairbanks Sr., and bride, Mary Pickford—"America's sweetheart."

The Twentieth Century was purposely created as a luxurious, fast-run train on June 15, 1902. At times it has provided such niceties as barber service, private

valets, stenographers and a library.

Through the years the train has been celebrated in plays, films, songs, books, poems and newspaper and magazine articles galore. The train's "Diamond Jubilee," as the Central calls it, will be hailed today in ceremonies here and in Chicago.

The first Century trains—it takes a pair to make the daily run each way—consisted of a steam locomotive and five wooden but ornate cars. The cars were three pullmans, a dining car and a car containing a buffet, library and barber shop.

On the first day, the trains carried a total of 42 passengers.

For some years, the train ran on a 20-hour schedule each way. Since 1932 it has made the 961-mile trip in 960 minutes, or 16 hours. As an accommodation to business men, it leaves each city late in the day and arrives at the other first thing next morning.

In the 60 years, the Central estimates, its twin Centuries have carried six million passengers a day of 62½ million miles.

Passengers have averaged 103,000 yearly, producing an average

revenue of \$4.1 million annually. Last year there were nearly 152,000 passengers and the trains grossed approximately \$8.1 million.

On every run now each Cen-

tury, pulled by a diesel electric engine and with about 16 streamlined cars, needs a total crew of 55. In addition each train has a mail car requiring a total of 29 clerks.
